*The debut of PEER alias Per Bloch Andersen entitled KOLLEKTION is released by Your Favourite Records 26 January 2009. The work is a book and CD in one: a book counting 162 pages of photographs, poetry, short stories, lyrics etc. and a CD including 13 tracks of rock, electronica, pop, folk, classical and more. The music ranges from the open and luminous to the intense and deep.*

KOLLEKTION exceeds the boundaries of both form and expression in combining both the printed and the played. A modern hybrid with the ambition of creating space for the spectators' perception and experience.

The music has been recorded at several locations: the former concert hall of the Danish National Radio, the NOA Studio in Copenhagen, Roskilde Cathedral, and a number of private addresses in Denmark etc.

All lyrics are in English except track 13, which is a poem in Danish read by family members of the artist. The texts of the book are in both Danish and English. KOLLEKTION is a versatile and ambitious entrance on the art scene – a sensuous kaleidoscope in sound, text and photography.
