

BodaBoda Duo – "The Rich and the Famous"

*Jakob Thorkild Overgaard: guitar
Bjørn Heebøll: drums*

3rd album by Danish improv constellation BodaBoda Duo is released on the 28th of May 2010 on label Your Favourite Records.

The Rich and the Famous is a strictly improvised album with strong sonic lines to classic metal and classic improv. The album is recorded played live in studio – one drum set and one electric guitar.

When asked, the duo answers that The Rich and the Famous is an album that contains a very strong vibe in at least two genres – metal and improv – and if you listen in to it you will get the dynamics and interplay of the improvisation and the power and strength of the metal. The band also feels that the album contains some sort of Scandinavian sound.

Bjørn Heebøll and Jakob Thorkild Overgaard are both very active personalities on the Danish music scene and they both take a powerful position in Copenhagen improv music. BodaBoda Duo has existed since 2001. Since then the duo has played a very large number of concerts in Denmark and Sweden. BodaBoda Duo has formerly released two albums BodaBoda Duo, 2004, and Exotic Lifestyle, 2006. Both albums come highly recommended by Danish music magazines such as Jazz Special, Geiger and DR.DK. Both releases are limited editions.

BodaBoda Duo have collaborated with many other great musicians such as Jeppe Skjold (Slaraffenland), Mads Brauer (Efterklang), Mads Hyhne (Bug Powder), Anders Banke (New Jungle Orchestra), Sture Ericson and many more. In the African language Swahili BodaBoda means borderland and the duo consider themselves as working in the borderland between musical genres and creative artistic thought.
