

Emil De Waal+ – "Elguitar & Saxofon"

Gustaf Ljungreen (saxophone & guitar)
Jenno/Jens Bjørnkjær (saxophone & guitar)
Albert Raft (saxophone & guitar)
Emil de Waal (drums & electronics)

... is Emil de Waals brand new quartet and latest edition of the "Emil de Waal+"-project

"Elguitar & Saxofon" presents music composed for a line-up of three saxophone-players who also play the guitar – that is Gustaf Ljungreen, Jenno (Jens Bjørnkjær) and Albert Raft – and with the band-leader himself on drums and electronics.

With this new project Emil de Waal+ moves in a more melodic direction, but still finds room for the complete spectrum of improvisations, heavy grooves and crazy electronic excesses, that has characterized the Emil de Waal+ project all along.

Emil de Waals soloproject "Emil de Waal+" is now running on it's seventh year and has involved a stellar line-up of Danish and international stars, extensive touring and no less than 4 albums, which have received praises both national and international media. Both USA, China, Belgium, Holland, Germany and all of Scandinavia has been Emils playground the past years, with amazing collaborators such as Wayne Horvitz, Erik Sanko, Spejderrobot, Kato Hideki and Xiao He.

The new album is out just before the Copenhagen Jazzfestival 2010 which will also be the bands live-debut.
