*What happens when your life is over? Did you make the most of your time here? What made you proud and which are your regrets?*

These are among the questions Jens Jepsen tries to answer on his debut-album, «Walking Between the Sun and the Atmosphere». The concept-album is a musical journey; a departure from life and a look into Sct. Peters waiting-room. Here we find our protagonist being confronted with a life that is waiting to be weighed and measured.

Gazing upon life itself, Jens Jepsen delivers folk/rock-inspired popmusic with a unique ear for the good melody, solid arrangements and a superior guitar-talent.

On the journey, Jens Jepsens pays respect to a number of musical shades from blues to classical and shows inspiration from names such as John Mayer, Joni Mitchell and Jonatha Brooke. The result is a debut-album with an impressive impact, hearable in both lyrics and music.

Jens Jepsens band consists of a line of musicians from the Copenhagen scene, and guests include Alexander Kraglund (Rasmus Nøhr, Sidsel Storm, Benjamin Aggerbæk m.fl.), Leif Bruun (Cody, Grand Avenue), Benjamin Aggerbæk and Annemarie Jensen.
